Dear parents of prospective college athletes;

Every year millions of dollars of unused scholarship awards go to waste in colleges across the United States. This is money that is given to student athletes that represent schools both large and small. This includes both athletic and academic monies. The main problem is that most parents of student athletes and students themselves don't know the process in making this money available to them.

On February 24th @ 7:00 P.M., in the cafeteria, the Eastern Athletic department will host the first athletic recruitment and scholarship workshop. We invite student athletes that attend Eastern High School to come and learn about the process of college recruiting, the do's and don'ts, how to make a college profile, and to learn about the NCAA clearinghouse.

Eastern High School is committed to the student athlete that represents our school both on the playing field and in the classroom. Students should be rewarded for going beyond the duty of the normal 7:30 – 2:30 student. Please R.S.V.P. Ed Hamilton @ edward.hamilton@jefferson.kyschools.us or call the athletic office @ 485-8432.
